

2008

London Trauma Conference

Royal Geographical Society, London.
12th - 14th November 2008.

- International Faculty:
Dr John Haggman
Professor Ari Leppäniemi
Professor Eldar Soreide
Dr Stefano Di Bartolomeo
Mr Karim Brohi
Dr Jerry Nolan
- Additional Masterclass Programme, 14th November 2008

Conference organised in
conjunction with:

Conference Information

The 3rd Annual London Trauma Conference is being held at the Royal Geographical Society in London. Drawing from the success of the previous meetings Dr David Lockey and Dr Gareth Davies have brought together a programme of

formidable speakers with international reputations who have been posed challenging topics and questions. As ever it is hoped delegates will leave the conference with clear views on delivering clinical excellence to the trauma patient.

The Speakers

Mr Karim Brohi

Consultant in Trauma and Vascular Surgery, Barts and the London NHS Trust. Founder of the web site Trauma Org. Karim has published widely on many aspects of trauma and has a specific research interest in the coagulation response to trauma.

Dr Jerry Nolan

Consultant in Intensive Care & Anaesthesia, Royal United Hospital Bath. Chairman Resuscitation Council UK. Co-Chair International Liaison Committee on Resuscitation. Editor in Chief Resuscitation.

Dr John Hagmann

Lieutenant Colonel US Army Medical Corps (retired). Medical Director of the Casualty Care Research Center at the Uniformed Services University of the Health Sciences in Bethesda, Maryland (retired). President and CEO Deployment Medicine International Co-author of original Tactical Combat Casualty Care Guideline. He has extensive experience in providing medical support and training to various Special Operations and federal law enforcement agencies.

Professor Tim Coats

Professor of Emergency Medicine Leicester University. Tim has published widely on all aspects of trauma and is chair of the UK College of Emergency Medicine Research & Publication Committee. His specific interest lies in coagulation and trauma.

Professor Tim Hodgetts

Hon Professor of Emergency Medicine and Trauma, University of Birmingham & Head of Academic Department of Military Emergency Medicine, Royal Centre for Defence Medicine, Birmingham.

Professor Ari Leppäniemi

Professor of Surgery, Meilahti Hospital, University of Helsinki, Finland. President of the European Association for Trauma Surgery and Emergency Surgery. President International Association for Trauma and Surgical Intensive Care. Past President Ambroise Pare International Military Surgery Forum. Head of Scandinavian Networking Group of Trauma and Emergency Management.

Professor Keith Porter

Professor of Trauma University Birmingham. Consultant Trauma Surgeon University Birmingham NHS Trust. Chairman Faculty of Pre-hospital Care, Royal College of Surgeons of Edinburgh. Vice Chairman of British Association of Immediate Care. Medical Director West Midlands Central Accident Resuscitation Emergency Team.

Professor David Mendelow

Head of Academic Neurosurgery, Consultant Neurosurgeon, Newcastle General Hospital. David has had a long standing interest in neurotrauma working in both Johannesburg and the UK. He has published extensively in peer reviewed journals and has been the principal investigator in several major trials. He is co-author of both national and international guidance on brain injury.

Professor Eldar Soreide

Professor of Anaesthesiology and Emergency Medicine University of Stavanger. Medical Director of Trauma, ICU and Emergency Care Stavanger University Hospital. President Scandinavian Society of Anaesthesiology and Intensive Care Medicine. Founding Editor Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine.

Professor Malcolm Woollard

Professor of Prehospital and Emergency Care, University of Coventry. Former Director of Research Faculty of Prehospital Care at James Cook University Hospital, Middlesbrough.

Dr Paul Frost

Consultant in Intensive Care, University Hospital Wales. Paul has published widely on issues pertaining to intensive care and with his colleagues provides the only resident consultant ITU service in the UK.

Mr Alistair Wilson OBE

Consultant in Emergency Medicine, Barts and the London NHS Trust. Previous appointments include the Chair of British Trauma Society and Past President European Society for Trauma & Emergency Surgery.

Dr Otto Chan

Consultant Radiologist, London. Otto is passionate about interventional & trauma radiology & has written many texts and published widely on the same.

Dr Marcus Rall

Consultant Anaesthetist, University Hospital Tuebingen, Germany. Centre of Patient Safety and Simulation, University Tuebingen, Germany. Marcus is passionate about the role of simulation in anaesthesia and intensive care and its importance in patient safety. He has published widely on the topic and has lectured at many international events.

Dr Bob Winter

Consultant in Intensive Care Medicine Queens Medical Centre Nottingham. He is President Elect of the Intensive Care Society and Medical Lead for the Mid-Trent Critical Care Network.

Professor Jonathan Bengler

Professor of Emergency Care at the University of the West of England (UWE), Consultant in Emergency Medicine at the Bristol Royal Infirmary and Medical Advisor (Air Operations) Great Western Ambulance Service. Jonathan leads the emergency care research programme at UWE and has extensive experience of in-hospital and pre-hospital trauma management.

Dr Dan Ellis

Consultant in Emergency Medicine and Intensive Care, University College Hospital London. Dan has had extensive experience in trauma gained from working in the UK and Australia.

Mr Mike Walsh

Consultant in Trauma & Vascular Surgery & Lead Clinician for Trauma Service, Barts and the London NHS Trust. President British Trauma Society. Mike has had a huge exposure to trauma both in the UK and South Africa and has led the development of the trauma service at Barts and the London NHS Trust.

Lt Col Alan Kay

Lieutenant Colonel, Surgeon 16 Close Support Medical Regiment. Honorary Consultant Burns and Plastic Surgeon, Frenchay Hospital Bristol. Consultant Advisor in Burns and Plastic Surgery, Army Medical Services. Lead Clinician, South West Regional Burn Service.

Mr Simon Van Orden

Metropolitan Police Service, London. Simon had extensive experience of dealing with chemical and terrorist incidents within the London Area and is uniquely qualified to talk about metamphetamine hazards.

Dr Simon Leigh Smith

Consultant in Emergency Medicine, Edinburgh Royal Infirmary. Simon has a broad experience of both prehospital and in-hospital trauma care. As a member of the British Navy has experienced trauma care from both a military and civilian context.

Dr Malcolm Russell

Lead Clinical Governance Surrey and Sussex Air Ambulance. Honorary Clinical Specialist HEMS London. Previously Doctor with Royal Army Medical Corps. Malcolm has a broad experience of civilian and military prehospital care and was responsible for the British Army's extrication training during his military career.

Dr Andrew Reid

Her Majesty's Coroner London. Andrew is dually qualified as a solicitor and medical practitioner (formerly training in forensic medicine). Responsible for the bodies resulting from the 7th July terrorist bombings in London, Andrew is well placed to give clinicians advice on dealing with the dead at major incidents.

Mr Chris Driver-Williams

Kratos Enterprises Limited. Retired British Army Major. Fellow Institute Explosives Engineers. Member International Association Bomb Technicians and Investigators. Formerly IED Intelligence team leader at Defence Intelligence Staff, Ministry of Defence. Counter IED Consultant US. Department of Defence. Consultant US and British Government.

Mr Tom Carrell

Consultant Vascular Surgeon. Tom is a vascular surgeon with reputation for excellence and innovation.

Dr Ian Maconochie

Consultant Paediatric Emergency Medicine Imperial College Healthcare NHS Trust. Secretary Association Paediatric Emergency Medicine. Chair EPLS Course Sub-committee, Resuscitation Council (UK). Ian has taken a leading role in the development of paediatric emergency medicine in the UK and co-author of several documents defining national policy.

Dr Stefano Di Bartolomeo

Consultant Anaesthetist University Of Udine, Italy. Stefano has published many papers on trauma including prehospital care and trauma epidemiology. He was founder member of the group developing the first Italian trauma registry.

Dr Anne Weaver

Consultant in Emergency Medicine & Prehospital Care, Barts and the London NHS Trust. Anne has had extensive experience in trauma care both in the UK and Australia and has an interest in the ethics of trauma resuscitation.

Dr Rod Mackenzie

Senior Lecturer and Honorary NHS Consultant in Emergency Medicine, Leicester. Council Member Faculty Prehospital Care, Royal College of Surgeons. Prehospital Care Subcommittee member, College of Emergency Medicine. Rod is helping lead sub speciality recognition of prehospital care in the UK and has published in peer reviewed journals on PHC training.

Lt Col Doug Bowley

Consultant General Surgeon, Heartlands Hospital Birmingham and Defence Medical Services. Senior Lecturer, Academic Department of Military Surgery and Trauma. Doug has extensive experience of trauma surgery and recently trained in South Africa.

London Trauma Conference 2008

12th November 2008

- 08.45 - 09.15 **Registration**
- 09.15 - 09.30 **Introduction**
- 09.30 - 11.00 **Session 1 - Systems**
- Trauma Centres: Mr Karim Brohi**
Do trauma centres produce better outcomes?
How many patients should a trauma centre see?
Which staff should be resident?
- Trauma Teams: Mr Alastair Wilson**
What are the models of trauma reception?
Do multiprofessional teams perform better?
What makes a good team?
- Confidential Enquiries: Professor Tim Coates**
What is a confidential enquiry?
Who should run them?
Have they had a positive effect on patient outcome?
-
- 11.00 - 11.25 **Coffee**
-
- 11.25 - 12.15 **Session 2 - Ethics and Error**
- Ethical Dilemmas in Trauma Care: Dr Anne Weaver**
A case based interactive session
- Errors in trauma care: Dr Marcus Rall**
Why do errors occur?
How can we prevent them?
Do the techniques / programmes designed to reduce error actually work?
- 12.15 - 13.00 **Key Note Address**
Fluid Resuscitation in Trauma: Dr Jerry Nolan
-
- 13.00 - 14.00 **Lunch**
-
- 14.00 - 14.30 **Session 3 - Debate A**
ATLS is the key to good trauma care in the UK: Dr Bob Winter / Dr Jerry Nolan
- 14.30 - 15.00 **Session 4**
- Vascular Trauma - alternative approaches: Mr Tom Carrell**
Which injuries are amenable?
What are the practicalities?
What does the future hold?
-
- 15.00 - 15.30 **Coffee**
-
- 15.30 - 17.00 **Damage Control Laparotomy: Professor Ari Leppäniemi**
What are the indications?
How often should it be necessary?
How long should it take?
- Damage Control Orthopaedics: Professor Keith Porter**
What procedures should be performed?
Who should perform them?
Where should it take place?
- Damage Control Intensive Care: Professor Eldar Soreide**
Should patients be optimised for urgent surgery?
What are the physiological end points?
Who should make the decision?

13th November 2008

- 09.30 - 11.00 **Session 6 - Death and the Future**
- Dealing with a Trauma Death: Dr Paul Frost**
Are there cultural differences?
What is the impact of religion?
Can pathways help?
- The Trauma Post Mortem: Dr Otto Chan**
Do they really identify the cause of death?
Can modern imaging have a role?
How often does the pathologist surprise the clinician?
- London Trauma Conference 2030: Mr Alastair Wilson**
Can nano technology contribute to trauma care?
What else does the future hold?
What are the implications for training?
-
- 11.00 - 11.25 **Coffee**
-
- 11.25 - 12.15 **Session 7 - Clinical Topics**
- Big Burns: Lt Col Alan Kay**
Should burns patients go direct to burns centers?
Are fluid formulae of use in the first 2 hours?
What are the latest developments?
- Penetrating Head Injury: Professor David Mendelow**
Should a knife just be pulled out?
When to do an angiogram?
What are the practical difficulties?
- 12.15 - 13.00 **Key Note Address**
Haemostasis in Trauma: Karim Brohi
-
- 13.00 - 14.00 **Lunch**
-
- 14.00 - 14.30 **Session 8 - Debate B**
Are surgeons required in the initial reception of trauma?: Dr Dan Ellis / Mr Mike Walsh
- 14.30 - 15.00 **Session 9 - Blast**
- Blast Injury: Lt Col Doug Bowley**
Is outcome resource dependant?
Are there lessons for modern urban conflict?
Compression or tourniquet?
-
- 15.00 - 15.30 **Coffee**
-
- 15.30 - 17.00 **Session 10**
- Paediatric Trauma Victims: Dr Ian Maconochie**
How to deal with the agitated child?
Is the approach to spinal immobilisation different?
How can we produce good practice for such rare events?
- Performance Indicators in Trauma Care: Dr Stefano Di Bartolimeo**
Airway?
Breathing?
Circulation?
- Trauma Audit: Professor Jonathan Benger**
What systems exist?
Have they helped Trauma Care?
Can they shape the future?

London Trauma Conference 2008

| 14th November 2008 | 14th November 2008 |
|---|---|
| <p>09:30 - 11:00 Session 11</p> <p>Metamphetamine: Mr Simon Van -Orden <i>What can we learn from the US? What is the risk to prehospital personnel? How should we assess the scene for risk?</i></p> <p>Accident Investigation <i>What happens after the clinician leaves the scene? How can the clinician help? How does it help our patients?</i></p> <p>Prehospital Medical Training: Dr Rod Mackenzie <i>What can we learn from European Models? What are the key competencies? What does the future hold?</i></p> | <p>14th November 2008</p> <h2>Masterclass Sessions</h2> <p>Timings for all Masterclasses and Breakaway Session: Registration: 08.30 Commence: 09.00 - 17.00</p> <hr/> <h3>Helicopter Medicine</h3> <p>A breakaway session for paramedics, doctors and nurses practising or interested in prehospital medicine centred around helicopters. Supported by UKHEMS. This masterclass is designed for paramedics, doctors and nurses involved in rotary wing Medevac. A vibrant programme, reviews the latest developments and thinking in prehospital care in this arena. Supported by UK HEMS.</p> |
| <p>11.00 - 11.25 Coffee</p> | <hr/> <h3>Trauma Systems</h3> <p>This Masterclass, open to both clinicians and non clinicians considers all aspects of trauma systems & networks. Led by Mr Karim Brohi this day will provide invaluable to insight for all healthcare professionals engaged in current healthcare reforms. See the Medical Excellence web site for further details.</p> |
| <p>11:25 - 11:50 Session 12</p> <p>Producing an EMS system from scratch - learning from recent military experience: Professor Tim Hodgetts <i>Are there similarities with civilian operations? Does one prehospital team suit all circumstances? What lessons are there for civilian practice?</i></p> <p>12:15 - 13:00 Keynote Address Prehospital Care in a Hostile Environment: What can we do & what should we do?: Dr John Hagmann</p> | <hr/> <h3>Coagulation and Trauma</h3> <p>A clinical Masterclass that aims to provide new insights into massive transfusion and the problems of coagulation in trauma. Supported by National Faculty of Trauma & Transfusion this class is led by DrShuba Allard and Mr Karim Brohi. See the Medical Excellence web site for further details.</p> |
| <p>13.00 - 14.00 Lunch</p> | <hr/> <h3>13th November: Stand-up Science (evening)</h3> |
| <p>14:00 - 14:30 Session 13</p> <p>Doctors are not necessary for high level prehospital trauma care: Dr Simon Leigh Smith / Professor Malcolm Woollard</p> <p>14:30 - 15:00 Session 14</p> <p>A New Approach to Patient Extrication <i>Are there global approaches? What could be done different? Should we have audit standards for simple vehicle rescue?</i></p> | <p>An informal evening session of academic presentations first established at Scandinavian Update, Stavanger. Each presenter will be given just four minutes to outline their research, with nothing more than a flip chart. The participants will range from medical students to consultants, and they have to convince a panel of experts and a skeptical audience that their research project was worth listening to. The expert panel will put the presenters under pressure to ensure it will be an entertaining as well as educational evening. Coordinator Per Bredmose, please contact Per directly on bredmose@hotmail.com</p> |
| <p>15.00 - 15.30 Coffee</p> | <hr/> <h2>Breakaway Session</h2> <hr/> <h3>14th November: Trauma Update for Junior Doctors</h3> <p>This breakaway session is designed for Junior Doctors and Nurses and will bring them up to date with key issues in a wide range of trauma care issues. Attendees are free to move between other masterclasses taking place on the 14th November.</p> <p>Further information on the Masterclass Sessions can be found at www.londontraumaconference.com</p> |
| <p>15:30 - 17:00 Session 15</p> <p>Triage - is it just a nice theory?: Dr Malcolm Russell <i>Are the current systems practical? Are their alternatives? Can technology help?</i></p> <p>Caring for the Dead at Major Incidents: Dr Andrew Reid <i>Is there a role for the Doctor on scene? What happens to the body during the investigation? Can the coroners investigation help patients in the future?</i></p> <p>Scene Safety at major incidents? Mr Chris Driver Williams <i>What are the hazards? Can we identify them reliably? What precautions can we take and still get the job done?</i></p> <p>16.45 Closing Address</p> | |

Conference Details

Booking Conditions

1. Completion of a signed booking form, online registration, or a telephone credit card booking all constitute a confirmed booking.
2. All payments must be made in UK £.
3. Cancellations received in writing 6 weeks before the event will be subject to a 20% cancellation fee. After this time, we regret that no refund is available. However, we will accept a named substitute delegate.
4. Speakers and programme are correct at the time of going to press. However Medical Excellence Ltd reserves the right to make changes without prior notice.
5. Medical Excellence Ltd does not accept liability for cancellation due to exceptional circumstances beyond its control including, but not limited to, extreme weather events, civil disturbance, and acts of war or terrorism.

Venue

The Royal Geographical Society is located in Kensington on the junction between Exhibition Road and Kensington Gore, the main entrance is on Exhibition Road.

Address

1 Kensington Gore
London SW7 2AR

Rail

London Paddington & London Victoria are the nearest main line railway stations. Walking from Paddington takes 25 minutes.

Bus & Underground

Several bus routes stop outside the Society:

- 9 - from Hammersmith to Aldwych
- 10 - from Hammersmith to King's Cross
- 52 - from Willesden to Victoria
- 360 - from Kensington to Elephant & Castle
- 452 - from Wandsworth to Willesden

It is about 10-15 minutes walk from South Kensington tube. South Kensington is on the Circle, District and Piccadilly Lines. Knightsbridge station on the Piccadilly line and Lancaster Gate Station on the Central line are about 15 minutes walk.

Bicycle

Bicycles can be locked against one of the two bike stands which are located next to the main entrance to the building (along Exhibition Road).
